

Hill Country Challenge 2023

Moe & Gene Johnson Safety Protocol

Evacuation (fire, Gas Leak, etc.):

- Evacuate the building
- Listen to instruction over the PA or by the Ascension Staff
- Use the quickest route with the least resistance

Stay/Hold in Place):

- Need to limit the movement in the building
- Dancing may continue as normal
- Limit restroom trips as much as possible
- There will be staff members in the hallway
- Wait for further instructions from the Ascension/Host School Staff

LockOUT:

- External threat
- Check hallways and bring students inside the gym
- Dancing may continue as normal
- Limit restroom trips as much as possible
- Entry/exit to the building will be limited

LockDOWN:

- Internal threat
- If you are not given a specific location of the threat- go into the lock down protocol. You will react to what you see and hear.
- Lock doors, cover window panes, turn off the lights, keep all dancers and spectators silent.
- No entry/exit to building (no one in, no one out)

*In case of Emergency, please follow the following steps:

1. Notify Ascension staff / JHS Staff
2. Notify Campus Police on site
3. Notify Campus administrator
4. Notify participants of shelter in place procedures

*If you are in need of a bleed kit, there are many bleeding control stations located throughout the school. The closest one to the main gym will be located in the Athletic hallway directly outside the main gy.

*If you are in need of a defibrillator, there are many located throughout the school. The closest ones to the dance areas will be the Fine Arts Hallway, Nurses office located next to the cafeteria and the Training Room in the Athletic hallway.

Please refer to the link below that provides a map of the STB Kits & AED Locations:
